

LBT-173: GM & Toyota EVAP

There's not a diagnostic problem that can get "Thrown under the bus," with instructor Dave Hobbs at the wheel. Dave will be showing you what to look for when it comes to diagnosing EVAP systems on GM and Toyota vehicles. This ride through the EVAP system will cover a step-by-step analysis of the components and parts of the different systems installed on today's GM and Toyota vehicles. Your instructor/bus driver, Dave, will show you how to determine fault locations, code definitions, and scanner usage. Also, included in this video is how to diagnose using a smoke machine. So get your ticket... and take a ride on the EVAP bus line with AVI's Instructor Dave Hobbs.
